

"Air – The Invisible Leader"

- In May and June 2018,

we implemented activities related with the fourth
element:

AIR

"Air – The Invisible Leader"

Air activities were the most challenging for our students, as the AIR is invisible and difficult to understand. We worked more through crafts e.g. the windmills

"Air – The Invisible Leader"

paper mills and how they move as the air goes through them and examined the power of air

1st Special Nursery School of Patras, Greece

"Air – The Invisible Leader"

e examined by the crafts, everything that is flying: airplanes, kites, air balloons
